Priority 2		

Section	**Page**	**Figure Table**

Category Name Design-Segment-level   **Actionee**   HAIS

Sub Category

Subject   Use of campus network s at DAAC sites

Description of Problem or Suggestion:

Need site-by-site analysis and architectural review of detailed use of campus network to support FOS data flows and ISTs at each DAAC, and impacts on ECS M&O. Need to coordinate these analyses with affected partie, and document the results.

Originator's Recommendation

Need closure by CDR.

GSFC Response by: **GSFC Response Date**

HAIS Response by: Forman   **HAIS Schedule**   2/28/95

HAIS R. E.   D. Moore   **HAIS Response Date**   3/22/95

CSMS will complete an analysis of the issues involved in using campus facilities to allow IST-EOC communication. The analysis will involve input from ECS (CSMS and FOS) and the DAAC site campus network administrators. The analysis will result in a detailed implementation plan, on a site-by-site basis, to be completed for the CSMS CDR.
